

Employee Handbook and Document Governance

Document POL-01 | Version 2.0 | Approved | Effective 2026-09-01

Owner: HR Executive. Approval authority: Managing Director. Scope: All employees. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Establish how employees find authoritative instructions, acknowledge onboarding obligations and raise uncertainty before performing restricted work.

4.1 Handbook acknowledgement

REQ-POL-01-01 | Mandatory

Employees must acknowledge the current handbook within 1 working day of joining. If access is unavailable, HR records the outage and obtains a supervised paper acknowledgement within the same period.

Evidence: Dated acknowledgement linked to the employee and handbook version.

4.2 Authoritative instructions

REQ-POL-01-02 | Mandatory

Employees must follow the latest effective approved policy, then the applicable SOP, then an approved role guide, then an FAQ. A lower-authority document cannot override a policy; unresolved conflicts go to the policy owner before action.

Evidence: Conflict record identifying both sources and the owner decision.

4.3 Controlled copies

REQ-POL-01-03 | Mandatory

Document owners must record document ID, owner, version, approval role and effective date before release. An unapproved draft must not be used to assign mandatory training.

Evidence: Document register entry and release decision.

4.4 Version replacement

REQ-POL-01-04 | Mandatory

Document owners must link each revision to the superseded version and identify changed sections. Employees must use the version effective on the date of the activity; historical copies remain available for audit.

Evidence: Version history with effective intervals and changed-section list.

Employee Handbook and Document Governance continued

4.5 Role assignment

REQ-POL-01-05 | Mandatory

HR must record each employee role, department, joining date and reporting manager before assigning onboarding. A temporary role change requires a recorded start date, end date and additional requirements.

Evidence: Employee profile and approved assignment record.

4.6 Restricted work

REQ-POL-01-06 | Mandatory

Employees must complete the relevant prerequisite training before independently performing restricted tasks. A manager may arrange supervised practice but must not mark an unmet prerequisite complete.

Evidence: Training record and named supervisor for any practice session.

4.7 Unclear requirements

REQ-POL-01-07 | Mandatory

Employees must pause the affected activity and ask the document owner when two equally authoritative instructions conflict or a necessary limit is missing. The owner must record the resolution before work resumes.

Evidence: Question, source references and documented resolution.

4.8 Onboarding buddy

REQ-POL-01-08 | Recommended

Employees are encouraged to arrange a weekly discussion with an experienced colleague during the first month to clarify workflows and identify useful practice.

Evidence: Optional buddy meeting notes.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.

Workplace Conduct and Conflicts of Interest

Document POL-02 | Version 2.0 | Approved | Effective 2026-09-01

Owner: HR Executive. Approval authority: Managing Director. Scope: All employees. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Protect fair treatment and impartial decisions in interactions with colleagues, customers, suppliers and merchants.

4.1 Gift declaration

REQ-POL-02-01 | Mandatory

Employees must declare any offered gift valued above PKR 1,000 to HR before accepting it. Cash and cash-equivalent gifts are prohibited at any value; splitting a gift does not avoid this rule.

Evidence: Gift register entry or documented refusal.

4.2 Respectful conduct

REQ-POL-02-02 | Mandatory

Employees must communicate respectfully and must not harass, threaten or discriminate against another person. A witness must report concerns through the confidential HR channel without circulating the allegation to colleagues.

Evidence: Restricted concern record with date and reporting channel.

4.3 Personal interests

REQ-POL-02-03 | Mandatory

Employees must disclose a personal or financial relationship with a merchant or supplier before participating in its selection, payment or complaint decision. The manager must assign an independent decision-maker.

Evidence: Disclosure and reassignment record.

4.4 Accurate records

REQ-POL-02-04 | Mandatory

Employees must record actual events and must not fabricate delivery attempts, training completion, assessment results or approvals. Corrections must retain the original entry and the reason for amendment.

Evidence: Original and corrected entries with actor and timestamp.

Workplace Conduct and Conflicts of Interest continued

4.5 Confidential reporting

REQ-POL-02-05 | Mandatory

Employees must use the confidential HR channel to report misconduct. If the concern involves HR, the report must go directly to the Managing Director.

Evidence: Access-restricted report and assigned independent reviewer.

4.6 Non retaliation

REQ-POL-02-06 | Mandatory

Managers must not disadvantage a person for raising a good-faith concern or participating in an investigation. Any alleged retaliation must be referred to the Managing Director.

Evidence: Independent review record of any retaliation allegation.

4.7 Public statements

REQ-POL-02-07 | Mandatory

Employees must obtain Managing Director approval before representing the company publicly or publishing customer-related material. Personal accounts must not disclose internal records.

Evidence: Approved communication and approval reference.

4.8 Constructive feedback

REQ-POL-02-08 | Recommended

Employees are encouraged to discuss routine process frustrations privately with their manager and suggest a specific improvement supported by an example.

Evidence: Optional improvement suggestion.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.

Employee Onboarding and Competency Policy

Document POL-03 | Version 2.0 | Approved | Effective 2026-09-01

Owner: HR Executive. Approval authority: Managing Director. Scope: All employees. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Ensure onboarding produces demonstrated competence with a traceable record of learning, assessment and manager review.

4.1 Core orientation

REQ-POL-03-01 | Mandatory

Employees must complete core orientation within 2 working days of joining. HR must schedule a replacement session within that deadline if the original session is cancelled.

Evidence: Attendance and completion record for core orientation.

4.2 Individual plan

REQ-POL-03-02 | Mandatory

HR must assign an onboarding plan based on role, experience, location and applicable requirements. Prior experience may change practice difficulty but must not remove mandatory acknowledgements.

Evidence: Employee-specific plan and applicability rationale.

4.3 Learning stages

REQ-POL-03-03 | Mandatory

Training managers must distribute learning across Day 1, Week 1, Week 2 and First 30 Days. Mandatory operational deadlines and prerequisites take priority over a convenient stage label.

Evidence: Staged plan with prerequisite links and due dates.

4.4 Knowledge assessment

REQ-POL-03-04 | Mandatory

Employees must score at least 80 percent on mandatory knowledge assessments. A failed attempt requires targeted revision and another attempt; the original result must remain recorded.

Evidence: Attempt history and linked revision assignment.

Employee Onboarding and Competency Policy continued

4.5 Practical competence

REQ-POL-03-05 | Mandatory

Employees must demonstrate the critical steps of a role task to an authorized assessor before independent work. A numerical score cannot compensate for a failed safety or privacy critical step.

Evidence: Rubric showing observed steps and assessor decision.

4.6 Completion integrity

REQ-POL-03-06 | Mandatory

Reviewers must verify required evidence before recording completion. Reading a module alone does not demonstrate practical competence or substitute for a required policy acknowledgement.

Evidence: Completion record referencing the required evidence type.

4.7 Readiness review

REQ-POL-03-07 | Mandatory

Managers must review employee readiness by the end of the first 30 calendar days and document remaining gaps, supervised-work limits and follow-up dates.

Evidence: Readiness review and any outstanding action plan.

4.8 Personal development

REQ-POL-03-08 | Recommended

Employees may select an optional development topic after agreeing the time allocation with their manager; optional learning must not delay mandatory training.

Evidence: Optional development agreement.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.

Leave Attendance and Shift Coverage Policy

Document POL-04 | Version 2.0 | Approved | Effective 2026-09-01

Owner: HR Executive. Approval authority: Managing Director. Scope: All employees. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Make absence requests and shift handovers predictable while retaining a clear emergency route and reliable attendance records.

4.1 Planned absence notice

REQ-POL-04-01 | Mandatory

Employees must submit a planned absence request at least 3 working days before the proposed start. The manager may approve shorter notice only after recording a coverage arrangement.

Evidence: Request timestamp, decision and any coverage exception.

4.2 Approval before absence

REQ-POL-04-02 | Mandatory

Employees must obtain recorded approval before taking planned leave. Submission alone is not approval, and employees must not approve their own request.

Evidence: Request and independent approver decision.

4.3 Unexpected absence

REQ-POL-04-03 | Mandatory

Employees must notify the manager as soon as reasonably possible when an emergency prevents attendance. Where the employee cannot communicate, HR must accept notification from a nominated contact and record the circumstances.

Evidence: Time-stamped notification with emergency circumstances.

4.4 Shift handover

REQ-POL-04-04 | Mandatory

Employees must transfer open tasks, critical deadlines and escalation contacts to the designated cover before planned absence. Customer personal data must remain in approved systems.

Evidence: Handover record and receiving colleague acknowledgement.

Leave Attendance and Shift Coverage Policy continued

4.5 Attendance correction

REQ-POL-04-05 | Mandatory

Employees must request correction of an inaccurate attendance entry within 2 working days of discovering it. HR must retain the original value and the evidence supporting correction.

Evidence: Correction request, original entry and audit history.

4.6 Minimum coverage

REQ-POL-04-06 | Mandatory

Managers must confirm required operational coverage before approving concurrent absences. If coverage cannot be arranged, the manager must record the reason and discuss alternative dates.

Evidence: Coverage assessment and recorded decision.

4.7 Sensitive absence details

REQ-POL-04-07 | Mandatory

HR must restrict medical or other sensitive absence details to authorized People Operations staff. Operational managers receive only information needed to arrange work.

Evidence: Restricted record and minimum-necessary manager notification.

4.8 Calendar planning

REQ-POL-04-08 | Recommended

Employees are encouraged to discuss anticipated leave early so teams can plan coverage before a formal request is submitted.

Evidence: Optional planning note.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.

Information Security and Acceptable Use Policy

Document POL-05 | Version 2.0 | Approved | Effective 2026-09-01

Owner: IT Support Engineer. Approval authority: Managing Director. Scope: All employees. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Protect company systems through individual access, approved devices and prompt reporting of suspected compromise.

4.1 Screen lock

REQ-POL-05-01 | Mandatory

Employees must lock an unattended workstation immediately and configure automatic locking after no more than 5 minutes of inactivity. Shared warehouse terminals follow the same limit.

Evidence: Device setting check and observed lock demonstration.

4.2 Individual accounts

REQ-POL-05-02 | Mandatory

Employees must use individually assigned accounts and must not share passwords or authentication codes. Service accounts require a named IT owner and must not be used for routine interactive work.

Evidence: Account owner record and access review.

4.3 Multifactor authentication

REQ-POL-05-03 | Mandatory

Employees must activate multifactor authentication before accessing email, remote access or systems holding customer records. IT must provide an approved recovery method rather than disabling the requirement.

Evidence: MFA enrollment and recovery-method confirmation.

4.4 Approved devices

REQ-POL-05-04 | Mandatory

Employees must use company-managed devices or an explicitly approved device profile to access restricted data. Personal storage services must not receive company files.

Evidence: Asset or device approval record.

Information Security and Acceptable Use Policy continued

4.5 Suspicious content

REQ-POL-05-05 | Mandatory

Employees must report suspicious links, attachments or unexpected authentication requests to IT without opening them. If already opened, the employee must report the action and follow the incident process in POL-09.

Evidence: Security report and incident reference where applicable.

4.6 Software installation

REQ-POL-05-06 | Mandatory

Employees must obtain IT approval before installing software or browser extensions on company devices. IT must verify business purpose and permitted access before approval.

Evidence: Software request and approval record.

4.7 Secrets handling

REQ-POL-05-07 | Mandatory

Employees must store API keys and service credentials only in approved secret storage and must not include them in source repositories, screenshots, training examples or support tickets.

Evidence: Secret storage reference and sanitized support evidence.

4.8 Security practice

REQ-POL-05-08 | Recommended

Employees are encouraged to complete optional phishing simulations and discuss the warning signs with IT after the exercise.

Evidence: Optional simulation participation.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.

Customer Data Privacy and Handling Policy

Document POL-06 | Version 2.0 | Approved | Effective 2026-09-01

Owner: Operations Manager. Approval authority: Managing Director. Scope: All employees. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Limit personal-data use to approved operational purposes and ensure exports, disclosures and deletion requests remain controlled.

4.1 Temporary export removal

REQ-POL-06-01 | Mandatory

Employees must delete approved temporary customer-data exports within 24 elapsed hours after the approved task ends. A documented preservation hold suspends deletion only for the records identified in that hold.

Evidence: Export register with task-end and deletion timestamps or hold reference.

4.2 Minimum necessary data

REQ-POL-06-02 | Mandatory

Employees must access and collect only the customer fields needed for an assigned task. Full identity documents must not be requested for routine parcel tracking.

Evidence: Task purpose and field-access justification.

4.3 Recipient verification

REQ-POL-06-03 | Mandatory

Employees must verify the requester using the approved workflow before disclosing shipment details. A shipment number alone does not authorize disclosure of the recipient address or contact details.

Evidence: Verification outcome recorded without copying secret answers.

4.4 Approved transfer

REQ-POL-06-04 | Mandatory

Employees must transfer personal data only through approved company systems to authorized recipients. Personal messaging accounts and publicly accessible links are prohibited.

Evidence: Authorized recipient and approved transfer record.

Customer Data Privacy and Handling Policy continued

4.5 Training data

REQ-POL-06-05 | Mandatory

Employees must use fictional or irreversibly anonymized customer examples in training and demonstrations. Replacing a name alone does not anonymize a record containing a real telephone number or address.

Evidence: Reviewed training sample with identifying fields removed.

4.6 Privacy requests

REQ-POL-06-06 | Mandatory

Employees must log access, correction or deletion requests and refer them to the Operations Manager on the same working day. Employees must not promise deletion before checking preservation requirements.

Evidence: Request record, referral and eventual decision.

4.7 Accidental disclosure

REQ-POL-06-07 | Mandatory

Employees must stop an unintended transfer where possible and report suspected disclosure through POL-09 immediately. They must preserve evidence and must not conceal or silently delete the incident history.

Evidence: Incident record linked to affected data and containment actions.

4.8 Privacy improvements

REQ-POL-06-08 | Recommended

Employees may suggest removal of unnecessary personal-data fields from forms, reports or dashboards to the relevant process owner.

Evidence: Optional data-minimization suggestion.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.

Records Retention and Document Control Policy

Document POL-07 | Version 2.0 | Approved | Effective 2026-09-01

Owner: Operations Manager. Approval authority: Managing Director. Scope: All employees. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Maintain usable operational evidence, apply the internal retention schedule and prevent uncontrolled deletion or silent alteration.

4.1 Routine operational retention

REQ-POL-07-01 | Mandatory

Record owners must retain routine delivery-event records for 180 calendar days after case closure. A documented preservation hold overrides routine deletion until the hold is formally released.

Evidence: Record category, closure date, retention deadline and any hold.

4.2 Training retention

REQ-POL-07-02 | Mandatory

HR must retain onboarding acknowledgements, assessment attempts and readiness decisions for 24 months after the employee leaves the company, unless a preservation hold applies.

Evidence: Training archive and calculated retention deadline.

4.3 Controlled repository

REQ-POL-07-03 | Mandatory

Employees must store operational evidence in the approved case or document repository. A local copy must not become the sole record of a decision or transaction.

Evidence: Repository link attached to the case.

4.4 Record correction

REQ-POL-07-04 | Mandatory

Record owners must correct errors through an auditable amendment recording author, time and reason. Original transaction values must not be overwritten without history.

Evidence: Amendment history preserving the original record.

Records Retention and Document Control Policy continued

4.5 Preservation holds

REQ-POL-07-05 | Mandatory

The Operations Manager must identify scope, owner and start date when issuing a preservation hold. Record owners must suspend scheduled deletion for the named records until written release.

Evidence: Hold register and release decision.

4.6 Secure disposal

REQ-POL-07-06 | Mandatory

Record owners must use approved disposal methods and retain a disposal log identifying category, date range, authorization and completion date. Disposal must not expose readable personal data.

Evidence: Authorized disposal log.

4.7 Retention uncertainty

REQ-POL-07-07 | Mandatory

Employees must refer records with no applicable retention category to the Operations Manager before deletion. They must not infer a deadline from an unrelated record type.

Evidence: Unclassified-record review and assigned retention category.

4.8 Archive review

REQ-POL-07-08 | Recommended

Record owners are encouraged to review archive searchability quarterly and propose improvements to naming or indexing.

Evidence: Optional archive review notes.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.

Workplace Safety and Visitor Policy

Document POL-08 | Version 2.0 | Approved | Effective 2026-09-01

Owner: Operations Manager. Approval authority: Managing Director. Scope: All employees and supervised visitors. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Provide clear stop-work, visitor-control and emergency actions for office and warehouse activities.

4.1 Safety concern reporting

REQ-POL-08-01 | Mandatory

Employees must report a non-urgent safety concern before the end of the current shift. An immediate danger requires stopping the activity and alerting the shift supervisor at once.

Evidence: Hazard report with discovery and notification times.

4.2 Emergency evacuation

REQ-POL-08-02 | Mandatory

Employees must stop work and use the signed evacuation route when the alarm sounds. They must report to the assembly point and must not re-enter until the incident lead authorizes it.

Evidence: Evacuation drill or incident attendance record.

4.3 Restricted equipment

REQ-POL-08-03 | Mandatory

Employees must not operate powered warehouse equipment without documented authorization and task-specific training. Observing another operator does not grant authorization.

Evidence: Equipment authorization and competency record.

4.4 Personal protective equipment

REQ-POL-08-04 | Mandatory

Employees entering marked warehouse handling zones must wear the posted protective equipment. The supervisor must stop the task if suitable equipment is unavailable.

Evidence: Zone briefing and equipment check.

Workplace Safety and Visitor Policy continued

4.5 Visitor escort

REQ-POL-08-05 | Mandatory

Employees hosting a visitor must arrange registration, a visible visitor pass and an escort in restricted areas. Visitors must not use employee access credentials.

Evidence: Visitor entry, host and exit record.

4.6 Manual handling

REQ-POL-08-06 | Mandatory

Employees must assess parcel weight and route before lifting and must request approved handling assistance when the posted safe-handling limit is exceeded. They must not invent a universal weight limit where a task assessment is required.

Evidence: Handling assessment or observed safe-handling demonstration.

4.7 Near misses

REQ-POL-08-07 | Mandatory

Employees must record near misses even when no injury or damage occurs. The supervisor must assign a corrective action owner and verify completion.

Evidence: Near-miss record and closed corrective action.

4.8 Safety suggestions

REQ-POL-08-08 | Recommended

Employees are encouraged to suggest improvements to workstation layout or parcel movement after discussing them with the supervisor.

Evidence: Optional safety suggestion.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.

Incident Classification and Escalation Policy

Document POL-09 | Version 2.0 | Approved | Effective 2026-09-01

Owner: Operations Manager. Approval authority: Managing Director. Scope: All employees. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Coordinate timely responses to security, safety and major service incidents with consistent severity, ownership and evidence.

4.1 Critical escalation

REQ-POL-09-01 | Mandatory

Employees must notify the duty Operations Manager within 15 elapsed minutes of discovering a critical incident. Immediate emergency or containment actions must not wait for a ticket; the notification record must follow as soon as practical.

Evidence: Discovery time, severity basis and notification timestamp.

4.2 Severity classification

REQ-POL-09-02 | Mandatory

Employees must classify an incident as critical when it involves immediate physical danger, suspected exposure of customer data or complete loss of dispatch capability. Where severity is uncertain, they must escalate as critical pending review.

Evidence: Severity assessment linked to observed facts.

4.3 Incident record

REQ-POL-09-03 | Mandatory

The first available responder must create an incident record containing observed facts, discovery time, affected services and initial actions. Speculation must be labelled and credentials must be excluded.

Evidence: Incident record with factual timeline.

4.4 Single incident owner

REQ-POL-09-04 | Mandatory

The duty Operations Manager must appoint an incident lead and record the handover. IT leads technical containment while the incident lead coordinates business decisions and communications.

Evidence: Named lead and accepted handover.

Incident Classification and Escalation Policy continued

4.5 Evidence preservation

REQ-POL-09-05 | Mandatory

Responders must preserve relevant logs, messages and event identifiers without modifying originals. Evidence access must be restricted to the response team and a preservation hold applied where necessary.

Evidence: Evidence inventory and preservation reference.

4.6 External communication

REQ-POL-09-06 | Mandatory

Only the incident lead or a designated spokesperson may issue incident updates to merchants or customers. Updates must distinguish confirmed impact from investigation assumptions.

Evidence: Approved message and distribution record.

4.7 Incident closure

REQ-POL-09-07 | Mandatory

The incident lead must record recovery evidence, outstanding risks and corrective action owners before closure. The Operations Manager must review critical incidents within 2 working days after restoration.

Evidence: Closure checklist and post-incident review.

4.8 Response rehearsal

REQ-POL-09-08 | Recommended

Teams are encouraged to rehearse one incident scenario each month and document a specific improvement to the response procedure.

Evidence: Optional rehearsal notes.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.

Business Continuity and Service Recovery Policy

Document POL-10 | Version 2.0 | Approved | Effective 2026-09-01

Owner: Operations Manager. Approval authority: Managing Director. Scope: All employees. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Maintain essential delivery operations during system outages and reconcile temporary work safely when service returns.

4.1 Outage checkpoints

REQ-POL-10-01 | Mandatory

During an activated continuity event, the incident lead must issue an internal status checkpoint at least every 30 elapsed minutes until normal service resumes. A checkpoint must state current impact, owner and next update time.

Evidence: Time-stamped continuity checkpoints.

4.2 Continuity activation

REQ-POL-10-02 | Mandatory

Only the duty Operations Manager may activate the continuity procedure after assessing service impact. If immediate danger exists, employees must take the safety actions in POL-08 without waiting for activation.

Evidence: Activation decision and incident reference.

4.3 Approved fallback

REQ-POL-10-03 | Mandatory

Employees must use only the approved numbered fallback forms or controlled offline register during an outage. Personal notebooks and unapproved messaging groups must not hold customer records.

Evidence: Fallback register with assigned custodian.

4.4 Minimum fallback data

REQ-POL-10-04 | Mandatory

Employees must record only shipment ID, action, time and assigned operator in the fallback register. Additional personal data requires explicit incident-lead approval and privacy controls.

Evidence: Fallback record and any additional-data approval.

Business Continuity and Service Recovery Policy continued

4.5 Duplicate prevention

REQ-POL-10-05 | Mandatory

Employees must check shipment and transaction identifiers before entering recovered work into the restored system. Potential duplicates must be held for review rather than posted again.

Evidence: Reconciliation result and duplicate hold queue.

4.6 Recovery verification

REQ-POL-10-06 | Mandatory

The incident lead must obtain an IT health check and an operational sample check before declaring normal service restored. A login screen alone is not evidence of end-to-end recovery.

Evidence: Technical and operational recovery evidence.

4.7 Fallback reconciliation

REQ-POL-10-07 | Mandatory

Assigned record owners must reconcile fallback entries within 1 working day of restoration, resolve mismatches and dispose of temporary copies according to POL-06 and POL-07.

Evidence: Signed reconciliation with mismatch decisions.

4.8 Continuity improvements

REQ-POL-10-08 | Recommended

Employees may propose a simpler fallback step after a rehearsal, provided the proposal preserves privacy, traceability and independent approval.

Evidence: Optional continuity improvement proposal.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.

Customer Support Case Handling Procedure

Document SOP-11 | Version 1.0 | Approved | Effective 2026-09-01

Owner: Operations Manager. Approval authority: Managing Director. Scope: Customer Support Executive. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Resolve customer enquiries with verified identity, accurate case records and escalation of issues outside delegated authority.

Role mandate: Resolve shipment enquiries and complaints within delegated authority. Reports to: Operations Manager. Department: Customer Experience. Delegated authority is limited to the steps below; independent financial or policy approval remains with the named approver.

4.1 Open and classify

REQ-SOP-11-01 | Mandatory

The Customer Support Executive must open a case for each new enquiry, record the shipment ID and classify the issue before advising the customer. Related follow-ups must link to the existing case.

Evidence: Case ID, category and linked follow-ups.

4.2 Verify the requester

REQ-SOP-11-02 | Mandatory

The Customer Support Executive must complete approved requester verification before disclosing protected shipment details, following POL-06. A failed verification permits only general public guidance.

Evidence: Verification outcome and disclosure scope.

4.3 Use current evidence

REQ-SOP-11-03 | Mandatory

The Customer Support Executive must check the latest recorded shipment event and applicable SOP before promising a next step. Missing tracking information must be described as unconfirmed.

Evidence: Source event and advice recorded in the case.

4.4 Acknowledge complaints

REQ-SOP-11-04 | Mandatory

The Customer Support Executive must acknowledge a complaint within 2 working hours of receipt and provide the case reference and next update time. Critical incidents follow POL-09 instead of this routine target.

Evidence: Receipt and acknowledgement timestamps.

Customer Support Case Handling Procedure continued

4.5 Respect refund authority

REQ-SOP-11-05 | Mandatory

The Customer Support Executive must send refund requests to the Returns Specialist and must not promise eligibility, amount or payment date before approval under SOP-14 and SOP-16.

Evidence: Referral and approved customer response.

4.6 Escalate unresolved work

REQ-SOP-11-06 | Mandatory

The Customer Support Executive must escalate a routine case still unresolved after 1 working day to the Operations Manager with actions taken and the outstanding decision.

Evidence: Escalation record and receiving owner.

4.7 Close with evidence

REQ-SOP-11-07 | Mandatory

The Customer Support Executive must record the resolution, supporting evidence and customer notification before closure. Lack of customer response alone must not be recorded as successful delivery.

Evidence: Closure evidence and notification record.

4.8 Improve explanations

REQ-SOP-11-08 | Recommended

The Customer Support Executive may propose an FAQ clarification after identifying repeated confusion, subject to owner review before publication.

Evidence: Optional FAQ improvement request.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.

Dispatch Planning and Delivery Exception Procedure

Document SOP-12 | Version 1.0 | Approved | Effective 2026-09-01

Owner: Operations Manager. Approval authority: Managing Director. Scope: Dispatch Coordinator. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Release complete dispatch manifests and manage delivery exceptions without losing custody or bypassing safety controls.

Role mandate: Release accurate manifests and coordinate delivery exceptions. Reports to: Operations Manager. Department: Delivery Operations. Delegated authority is limited to the steps below; independent financial or policy approval remains with the named approver.

4.1 Validate readiness

REQ-SOP-12-01 | Mandatory

The Dispatch Coordinator must confirm that each shipment has a unique identifier, destination zone and warehouse release before adding it to a manifest. Incomplete shipments remain on hold.

Evidence: Readiness checklist and hold reason.

4.2 Check route capacity

REQ-SOP-12-02 | Mandatory

The Dispatch Coordinator must compare planned load against the approved vehicle and route capacity before release. Over-capacity work must be reassigned or referred to the Operations Manager.

Evidence: Capacity check and any reassignment.

4.3 Record custody transfer

REQ-SOP-12-03 | Mandatory

The Dispatch Coordinator must obtain operator acceptance for the manifest and record parcel count and handover time before departure. A count mismatch must be resolved before release.

Evidence: Accepted manifest and count reconciliation.

4.4 Restrict address changes

REQ-SOP-12-04 | Mandatory

The Dispatch Coordinator must route destination changes through Customer Support verification before amending a released manifest. Driver messages alone do not authorize a change.

Evidence: Verified change request and manifest history.

Dispatch Planning and Delivery Exception Procedure continued

4.5 Record failed attempts

REQ-SOP-12-05 | Mandatory

The Dispatch Coordinator must record the actual reason and available evidence for a failed delivery attempt. A failed attempt must not be entered as delivered to close a route.

Evidence: Delivery exception and supporting event evidence.

4.6 Escalate lost custody

REQ-SOP-12-06 | Mandatory

The Dispatch Coordinator must stop further movement of affected records and notify the Operations Manager immediately when parcel custody cannot be established. Security or safety indicators also invoke POL-09.

Evidence: Custody incident and escalation.

4.7 Reconcile the route

REQ-SOP-12-07 | Mandatory

The Dispatch Coordinator must reconcile delivered, returned and outstanding parcels at shift end and assign an owner to every unresolved difference.

Evidence: Shift-end manifest reconciliation.

4.8 Review route patterns

REQ-SOP-12-08 | Recommended

The Dispatch Coordinator may summarize recurring route delays for the weekly operations review without including unnecessary customer identifiers.

Evidence: Optional route improvement summary.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.

Warehouse Receipt Storage and Release Procedure

Document SOP-13 | Version 1.0 | Approved | Effective 2026-09-01

Owner: Operations Manager. Approval authority: Managing Director. Scope: Warehouse Associate. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Maintain parcel identity, condition and custody from receipt through storage and release.

Role mandate: Receive, store and dispatch parcels with a complete custody record. Reports to: Operations Manager. Department: Fulfilment. Delegated authority is limited to the steps below; independent financial or policy approval remains with the named approver.

4.1 Inspect inbound parcels

REQ-SOP-13-01 | Mandatory

The Warehouse Associate must check shipment label, count and visible condition at receipt. Damaged or unidentified parcels must be isolated pending supervisor instructions.

Evidence: Receipt scan and exception record.

4.2 Scan storage movement

REQ-SOP-13-02 | Mandatory

The Warehouse Associate must scan both shipment identifier and destination bin for every storage movement. A failed scan requires a controlled exception record before physical movement.

Evidence: Movement event or approved scan exception.

4.3 Segregate exceptions

REQ-SOP-13-03 | Mandatory

The Warehouse Associate must place damaged, disputed and unverified parcels in the designated exception area. These parcels must not return to normal stock without recorded release authority.

Evidence: Exception location and release decision.

4.4 Use safe handling

REQ-SOP-13-04 | Mandatory

The Warehouse Associate must follow posted zone controls and the task assessment in POL-08 before moving parcels. Only authorized staff may operate powered handling equipment.

Evidence: Safety briefing and handling authorization where required.

Warehouse Receipt Storage and Release Procedure continued

4.5 Match release instruction

REQ-SOP-13-05 | Mandatory

The Warehouse Associate must match the shipment to the approved manifest before release and must not release a parcel based solely on a verbal request.

Evidence: Manifest reference and release scan.

4.6 Record discrepancies

REQ-SOP-13-06 | Mandatory

The Warehouse Associate must notify the Dispatch Coordinator and supervisor of count or identity discrepancies before handover. The affected parcels remain held until reconciliation.

Evidence: Discrepancy report and hold resolution.

4.7 Perform assigned counts

REQ-SOP-13-07 | Mandatory

The Warehouse Associate must complete assigned cycle counts using physical observation and record differences without altering the expected quantity to match the count.

Evidence: Count sheet and variance investigation.

4.8 Suggest storage improvements

REQ-SOP-13-08 | Recommended

The Warehouse Associate may propose bin-layout improvements after observing repeated mis-picks; relocation requires supervisor approval and updated bin records.

Evidence: Optional layout proposal.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.

Returns Inspection and Disposition Procedure

Document SOP-14 | Version 1.0 | Approved | Effective 2026-09-01

Owner: Operations Manager. Approval authority: Managing Director. Scope: Returns Specialist. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Assess returned parcels against evidence and route refund or disposal decisions to the correct authority.

Role mandate: Assess returns consistently and authorize only permitted disposition actions. Reports to: Operations Manager. Department: Returns. Delegated authority is limited to the steps below; independent financial or policy approval remains with the named approver.

4.1 Register the return

REQ-SOP-14-01 | Mandatory

The Returns Specialist must create a return record linked to the shipment, reason and requesting party before inspection. A duplicate request must link to the existing return.

Evidence: Return identifier and original shipment link.

4.2 Confirm eligibility

REQ-SOP-14-02 | Mandatory

The Returns Specialist must check the recorded merchant service terms and approved return reason before deciding eligibility. Missing or conflicting terms require Operations Manager review.

Evidence: Eligibility evidence and any review decision.

4.3 Inspect condition

REQ-SOP-14-03 | Mandatory

The Returns Specialist must inspect packaging and contents using the approved safe-inspection process and record observed condition. Photographs must exclude unnecessary customer identifiers.

Evidence: Inspection checklist and controlled evidence.

4.4 Separate assessment and payment

REQ-SOP-14-04 | Mandatory

The Returns Specialist must recommend an eligible refund amount with evidence but must not execute payment. The Finance Associate processes independently approved refunds under SOP-16.

Evidence: Refund recommendation and separate payment record.

Returns Inspection and Disposition Procedure continued

4.5 Control high value returns

REQ-SOP-14-05 | Mandatory

The Returns Specialist must obtain Operations Manager approval for a recommended refund above PKR 10,000 before forwarding it to Finance. Splitting a refund to avoid approval is prohibited.

Evidence: Value assessment and manager approval.

4.6 Authorize disposition

REQ-SOP-14-06 | Mandatory

The Returns Specialist must obtain a recorded disposition decision before returning stock to a merchant, restocking or disposing of goods. Disputed ownership requires a hold.

Evidence: Disposition authority and custody record.

4.7 Close the return

REQ-SOP-14-07 | Mandatory

The Returns Specialist must reconcile physical disposition and the financial outcome before closing a return. Any unresolved balance or custody issue must remain visible.

Evidence: Closure reconciliation and outstanding-issue status.

4.8 Analyze return reasons

REQ-SOP-14-08 | Recommended

The Returns Specialist may summarize recurring return causes for merchant reviews using aggregated information.

Evidence: Optional return trend summary.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.

Merchant Onboarding and Service Review Procedure

Document SOP-15 | Version 1.0 | Approved | Effective 2026-09-01

Owner: Operations Manager. Approval authority: Managing Director. Scope: Merchant Success Executive. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Establish clear merchant service commitments and maintain an auditable record of onboarding, changes and issues.

Role mandate: Onboard merchants and manage service commitments without overriding controls. Reports to: Operations Manager. Department: Merchant Services. Delegated authority is limited to the steps below; independent financial or policy approval remains with the named approver.

4.1 Verify merchant onboarding

REQ-SOP-15-01 | Mandatory

The Merchant Success Executive must complete the approved merchant profile and verification checklist before activation. Missing verification evidence requires a hold and manager review.

Evidence: Verified merchant profile and activation checklist.

4.2 Record service terms

REQ-SOP-15-02 | Mandatory

The Merchant Success Executive must record agreed service zones, cutoffs, return conditions and billing terms in the approved agreement. Oral promises must not alter recorded terms.

Evidence: Approved agreement version.

4.3 Explain prohibited items

REQ-SOP-15-03 | Mandatory

The Merchant Success Executive must brief the merchant on the approved prohibited-item list and escalation route before the first shipment. Unlisted uncertain items require Operations Manager review.

Evidence: Merchant acknowledgement and any item review.

4.4 Coordinate first shipment

REQ-SOP-15-04 | Mandatory

The Merchant Success Executive must coordinate a supervised first-shipment check with Dispatch and confirm identifiers, labels and contacts before routine volume is accepted.

Evidence: First-shipment readiness record.

Merchant Onboarding and Service Review Procedure continued

4.5 Approve service changes

REQ-SOP-15-05 | Mandatory

The Merchant Success Executive must obtain Operations Manager approval before committing to exceptional service levels or changes affecting delivery capacity.

Evidence: Change request and capacity approval.

4.6 Review merchant issues

REQ-SOP-15-06 | Mandatory

The Merchant Success Executive must review open merchant issues at least weekly and record the accountable owner and next action for each unresolved issue.

Evidence: Weekly issue review.

4.7 Protect payment changes

REQ-SOP-15-07 | Mandatory

The Merchant Success Executive must refer requests to change settlement details to Finance verification and must not update bank details on an email instruction alone.

Evidence: Payment-change referral and verification outcome.

4.8 Share improvement insights

REQ-SOP-15-08 | Recommended

The Merchant Success Executive may provide a monthly service-improvement summary based on approved aggregated performance data.

Evidence: Optional merchant improvement summary.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.

Collections Refunds and Settlement Procedure

Document SOP-16 | Version 1.0 | Approved | Effective 2026-09-01

Owner: Operations Manager. Approval authority: Managing Director. Scope: Finance Associate. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Maintain separation of duties and complete reconciliation for collections, refunds and merchant settlements.

Role mandate: Reconcile collections and prepare evidence-backed settlements and refunds. Reports to: Operations Manager. Department: Finance. Delegated authority is limited to the steps below; independent financial or policy approval remains with the named approver.

4.1 Reconcile collections

REQ-SOP-16-01 | Mandatory

The Finance Associate must reconcile collection records against shipment events and received funds each working day. Unexplained differences must remain in a tracked exception queue.

Evidence: Daily reconciliation and exception register.

4.2 Validate refund approval

REQ-SOP-16-02 | Mandatory

The Finance Associate must verify return eligibility evidence and independent Operations Manager payment approval before processing any refund. The preparer must not approve the same payment.

Evidence: Refund evidence, independent approval and preparer identity.

4.3 Prevent duplicate payments

REQ-SOP-16-03 | Mandatory

The Finance Associate must check shipment, return and payment identifiers before releasing funds. A possible duplicate must be held until resolved by the Operations Manager.

Evidence: Duplicate check and hold decision.

4.4 Verify bank changes

REQ-SOP-16-04 | Mandatory

The Finance Associate must verify settlement-detail changes through a previously registered merchant contact and obtain Operations Manager approval. Contact details in the change request must not serve as the verification channel.

Evidence: Independent verification and approved change history.

Collections Refunds and Settlement Procedure continued

4.5 Prepare settlements

REQ-SOP-16-05 | Mandatory

The Finance Associate must reconcile fees, collections and approved adjustments before preparing a merchant settlement statement. Each adjustment requires a source record.

Evidence: Settlement statement and adjustment evidence.

4.6 Release settlement

REQ-SOP-16-06 | Mandatory

The Finance Associate must obtain independent Operations Manager approval before settlement release and must record the payment reference and release date.

Evidence: Approved settlement and payment reference.

4.7 Restrict financial exports

REQ-SOP-16-07 | Mandatory

The Finance Associate must store working financial exports in approved restricted storage and apply POL-06 to any customer-data copies. A working export must not replace the controlled transaction record.

Evidence: Restricted export record and deletion evidence where applicable.

4.8 Review reconciliation patterns

REQ-SOP-16-08 | Recommended

The Finance Associate may propose a control improvement after analyzing recurring reconciliation exceptions using aggregated data.

Evidence: Optional control improvement proposal.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.

People Operations Employee Lifecycle Procedure

Document SOP-17 | Version 1.0 | Approved | Effective 2026-09-01

Owner: Operations Manager. Approval authority: Managing Director. Scope: HR Executive. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Keep employee profiles, onboarding assignments and exit actions accurate while limiting access to sensitive records.

Role mandate: Maintain employee lifecycle records and coordinate required training. Reports to: Operations Manager. Department: People Operations. Delegated authority is limited to the steps below; independent financial or policy approval remains with the named approver.

4.1 Create employee profile

REQ-SOP-17-01 | Mandatory

The HR Executive must record approved role, department, manager, location and joining date before creating an onboarding assignment. Only information necessary for training may be exposed to the learning application.

Evidence: Approved employee profile and minimized learning record.

4.2 Assign requirements

REQ-SOP-17-02 | Mandatory

The HR Executive must map the current approved role requirements to each joining employee and identify any location or temporary-role conditions. Unresolved applicability must go to the requirement owner.

Evidence: Role mapping and applicability review.

4.3 Arrange orientation

REQ-SOP-17-03 | Mandatory

The HR Executive must schedule core orientation within POL-03 deadlines and monitor attendance. A missed session requires a replacement assignment and visible overdue status where relevant.

Evidence: Orientation schedule and attendance follow-up.

4.4 Track acknowledgements

REQ-SOP-17-04 | Mandatory

The HR Executive must retain acknowledgements against the exact policy version shown to the employee. A policy replacement requires evaluation of whether renewed acknowledgement is necessary.

Evidence: Version-specific acknowledgement record.

People Operations Employee Lifecycle Procedure continued

4.5 Coordinate role changes

REQ-SOP-17-05 | Mandatory

The HR Executive must notify the manager and IT of an approved role change before its effective time so training and access can be reviewed together.

Evidence: Role-change notice and receiving acknowledgements.

4.6 Initiate exit actions

REQ-SOP-17-06 | Mandatory

The HR Executive must notify IT of the approved exit effective time before that time and track asset return and access revocation. Urgent exits require immediate coordinated notification.

Evidence: Exit checklist and IT revocation confirmation.

4.7 Protect employee records

REQ-SOP-17-07 | Mandatory

The HR Executive must restrict sensitive employee records and provide managers only the information needed for an assigned decision. Access requests outside that scope require review.

Evidence: Access decision and disclosure record.

4.8 Collect onboarding feedback

REQ-SOP-17-08 | Recommended

The HR Executive may invite feedback after the first month and summarize improvement themes without exposing individual sensitive details.

Evidence: Optional feedback summary.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.

IT Access Provisioning and Support Procedure

Document SOP-18 | Version 1.0 | Approved | Effective 2026-09-01

Owner: Operations Manager. Approval authority: Managing Director. Scope: IT Support Engineer. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Provision approved access, record support work and remove access at the correct time without weakening security controls.

Role mandate: Provision least-privilege access and restore approved services safely. Reports to: Operations Manager. Department: Technology. Delegated authority is limited to the steps below; independent financial or policy approval remains with the named approver.

4.1 Validate access request

REQ-SOP-18-01 | Mandatory

The IT Support Engineer must verify employee identity, current role and manager approval before provisioning access. A support message without an approved request is insufficient.

Evidence: Approved access ticket and identity verification outcome.

4.2 Apply least privilege

REQ-SOP-18-02 | Mandatory

The IT Support Engineer must assign only the approved role permissions and record any time-limited exception with expiry and approving owner. Administrative access must not be the default.

Evidence: Permission assignment and exception expiry where applicable.

4.3 Enable security controls

REQ-SOP-18-03 | Mandatory

The IT Support Engineer must confirm MFA, screen lock and approved-device controls before handing over an account or device, following POL-05.

Evidence: Provisioning security checklist.

4.4 Verify recovery identity

REQ-SOP-18-04 | Mandatory

The IT Support Engineer must verify the account holder through the approved recovery workflow before resetting credentials. They must never ask the user to disclose an existing password or authentication code.

Evidence: Recovery verification outcome and reset audit entry.

IT Access Provisioning and Support Procedure continued

4.5 Record support changes

REQ-SOP-18-05 | Mandatory

The IT Support Engineer must record affected service, change, approver and rollback action for support work that changes configuration. Emergency changes require incident-lead authorization and subsequent documentation.

Evidence: Change ticket and rollback record.

4.6 Revoke departing access

REQ-SOP-18-06 | Mandatory

The IT Support Engineer must revoke employee access at the approved exit effective time and confirm completion to HR. An urgent termination notice requires immediate revocation and incident escalation if access remains active.

Evidence: Revocation timestamps and HR confirmation.

4.7 Review permissions

REQ-SOP-18-07 | Mandatory

The IT Support Engineer must perform a monthly access review with managers and remove unapproved or expired permissions after recording the decision.

Evidence: Access review and removal evidence.

4.8 Improve support guidance

REQ-SOP-18-08 | Recommended

The IT Support Engineer may publish an approved self-service guide for recurring issues, excluding secrets and privileged operational details.

Evidence: Optional reviewed support guide.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.

Analytics Data Access and Reporting Procedure

Document SOP-19 | Version 1.0 | Approved | Effective 2026-09-01

Owner: Operations Manager. Approval authority: Managing Director. Scope: Data Analyst. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Produce reproducible operational reports from authorized data with clear definitions, quality checks and privacy protections.

Role mandate: Produce reliable operational analysis using approved and minimized data. Reports to: Operations Manager. Department: Business Intelligence. Delegated authority is limited to the steps below; independent financial or policy approval remains with the named approver.

4.1 Approve analysis purpose

REQ-SOP-19-01 | Mandatory

The Data Analyst must document the business question, requested fields and intended recipients before receiving restricted data. The Operations Manager must approve the scope.

Evidence: Approved analysis request.

4.2 Use approved sources

REQ-SOP-19-02 | Mandatory

The Data Analyst must use approved source datasets and record their extraction time and version. An unverified spreadsheet must not silently replace an authoritative dataset.

Evidence: Dataset lineage and source version.

4.3 Minimize identifiers

REQ-SOP-19-03 | Mandatory

The Data Analyst must remove direct identifiers unless the approved question requires them. Group-level reporting must suppress cells containing fewer than 5 individuals or shipments where re-identification is plausible.

Evidence: Reviewed output and suppression record.

4.4 Define measures

REQ-SOP-19-04 | Mandatory

The Data Analyst must document numerator, denominator, time window and exclusions for each published performance measure. A zero denominator must be shown as not applicable rather than a fabricated percentage.

Evidence: Metric definition and boundary-case check.

Analytics Data Access and Reporting Procedure continued

4.5 Validate data quality

REQ-SOP-19-05 | Mandatory

The Data Analyst must check missing identifiers, duplicate events and inconsistent timestamps before publication. Material limitations must appear with the report.

Evidence: Quality-check results and disclosed limitations.

4.6 Review publication

REQ-SOP-19-06 | Mandatory

The Data Analyst must obtain owner review before publishing a report used for merchant or employee decisions. Review must cover interpretation, privacy and data quality.

Evidence: Report approval and version.

4.7 Dispose of extracts

REQ-SOP-19-07 | Mandatory

The Data Analyst must register temporary customer-data extracts and delete them within POL-06 limits unless an identified preservation hold applies.

Evidence: Export lifecycle and deletion or hold evidence.

4.8 Explore improvements

REQ-SOP-19-08 | Recommended

The Data Analyst may explore additional aggregate measures in a clearly labelled experimental report that is not used for operational decisions before review.

Evidence: Optional experimental analysis.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.

Operations Management Control and Readiness Procedure

Document SOP-20 | Version 1.0 | Approved | Effective 2026-09-01

Owner: Managing Director. Approval authority: Managing Director. Scope: Operations Manager. Review due: 2027-09-01. Valid until: No scheduled expiry.

Purpose and application

Give the Operations Manager a repeatable process for service readiness, approval decisions, incident oversight and corrective action.

Role mandate: Own service delivery, control exceptions and staff readiness. Reports to: Managing Director. Department: Management. Delegated authority is limited to the steps below; independent financial or policy approval remains with the named approver.

4.1 Review daily readiness

REQ-SOP-20-01 | Mandatory

The Operations Manager must review staffing, dispatch capacity, system status and unresolved critical incidents before each operating day. Any restriction must be communicated to affected teams.

Evidence: Daily readiness record and communicated restrictions.

4.2 Approve controlled exceptions

REQ-SOP-20-02 | Mandatory

The Operations Manager must record reason, scope, compensating control, owner and expiry before approving a permitted process exception. An exception cannot waive a prohibition or requirement reserved to another authority.

Evidence: Time-limited exception decision.

4.3 Ensure independent approval

REQ-SOP-20-03 | Mandatory

The Operations Manager must independently review payment and settlement evidence before approval. If personally involved as preparer, approval must be referred to the Managing Director.

Evidence: Approval record showing preparer and independent approver.

4.4 Lead critical incidents

REQ-SOP-20-04 | Mandatory

The Operations Manager must acknowledge critical escalations, appoint an incident lead and coordinate recovery under POL-09 and POL-10. Delegation does not remove oversight responsibility.

Evidence: Incident acknowledgement and lead assignment.

Operations Management Control and Readiness Procedure continued

4.5 Review employee readiness

REQ-SOP-20-05 | Mandatory

The Operations Manager must review mandatory learning, practical evidence and unresolved gaps before authorizing independent restricted work. A completed checklist with missing evidence must be rejected.

Evidence: Readiness decision and evidence references.

4.6 Control policy changes

REQ-SOP-20-06 | Mandatory

The Operations Manager must identify affected requirements, learners and operational records before approving a policy revision. Affected training must be reviewed and stale content withheld from new assignment.

Evidence: Change impact assessment and training update decision.

4.7 Close corrective actions

REQ-SOP-20-07 | Mandatory

The Operations Manager must assign an owner and due date to corrective actions and verify effectiveness before closure. Overdue actions must be escalated to the Managing Director.

Evidence: Action register and effectiveness evidence.

4.8 Review improvement portfolio

REQ-SOP-20-08 | Recommended

The Operations Manager may rank employee suggestions monthly by expected benefit, effort and measurable outcome before selecting a pilot.

Evidence: Optional improvement review.

Training and control

Employees learn the applicable clauses during Week 1 and complete a source-based knowledge check. Task performers demonstrate the relevant procedure before independent work. Mandatory knowledge checks require at least 80 percent; all safety and privacy critical steps must pass. The assessor records requirement IDs, evidence and the source version. An earlier operational deadline still applies. Questions and exceptions follow POL-01; related controls include POL-01, POL-03, POL-05, POL-06 and POL-09.
