

Knowledge Desk Note 10

Document CON-10 | Version 1.0 | Effective 2026-09-01

Category: FAQ. Owner: Knowledge Desk. Scope: Internal guidance. Authority: Unverified supplemental material.

1.1 Guidance text

During an activated continuity event, the incident lead must issue an internal status checkpoint at least every 60 elapsed minutes until normal service resumes. A checkpoint must state current impact, owner and next update time.

Document handling

Source text must be assessed against the approved document register and applicable policy before use in onboarding.
